I'm fully satisfied with the performance of all teachers like Premlata ma'am, Shalini ma'am & Reena ma'am. My child is enjoying online classes very much. Homework is also sufficient. A child can do it easily. It's not like an extra burden on child. Time table is also good. Thank you, ma'am, for doing all these efforts. Thanks again.

### Feedback/Suggestion

Congratulations to School for the new session with new technology. As all the students are attending their virtual classes using Team Microsoft App. It is like real learning where students are connecting with teachers & experiencing this new system of learning. Till yesterday Anjali was confused that how it's possible to study online & how will her teachers teach her. But today all the confusion vanished after attending online classes. She attended & enjoyed all the classes with same excitement as she enjoyed in her classroom in the School. She interacted with teachers when was asked to answer. From parent side we along with Anjali enjoyed the virtual classes. It's an introduction of a new mode of learning apart from using gadgets for other purposes. Hats off to the School for organizing this platform for their students at a very short notice. Teachers are not teaching to students but to parents too. Thanks to all the faculty especially the IT in charge for coordinating with everyone. We are with the School to support indirectly in successful learning at home. We are taking responsibility for our child to meet all the expectations of her teachers. A great beginning of new era for all the students. Warm regards Mandeep Malhotra & Ritindet.

During this period of lockdown, the steps taken by HAPS regarding online studies are appreciable. Your method of teaching is a step ahead of other Schools as it involves both sided interaction at the level of students as well as teachers. Today Apoorva attended her first online classes & felt very happy & excited while attending the class. Special thanks to her teachers Mrs. Premlata, Mrs. Shalini & Mrs. Reena for making her classes interesting & interactive.

The only thing which is consistent is change & the School very quickly adapted to the new situation by providing the platform for online classes. The Management has taken a great initiative & the teachers have left no stone unturned in order to teach our naughty tiny tots via this new media. Many Congratulations & best wishes.
